Local Happenings

Mr. Ehlinger, of the firm of Lucas and Ehlinger, Monitor, received the sad news of the death of his mother on Monday last. Mrs. Ehlinger passed away on Saturday morning. The sympathy of the community is extended to Mr. Ehlinger in his bereavement.

Mr. J. F. Sternberg, Auctioneer, of Consort, was called down from that point on Saturday last, to conduct an auction sale in Monitor.

We were in receipt of a letter from W. M. Gehrke this week, who states that he is going to Peace River for the winter.

W. S. McCulloch dropped us a line this week. He is enjoying life in the big city, has a nice inside job, and can take an automobile ride whenever he wants to, as there hasn't been enough snow down there to make sleighing.

If thy hand offend thee, don't cut it off—make it do better.

Our thanks to Mrs. Wright for the words of the song asked for last week.

The Saskatoon Star flew rather wide of the mark in its issue of Friday last, when it asserted that Saltcoats led the Dominion with 29 crests on its honor flag. The News has taken the matter up with the publisher of the Star, and ere this reading, a correction should have been published in the Star giving credit where credit is due.

Wanted—some men who can sing, to attend choir practice at the St. Laurence Church on Thursday and Saturday evenings. We are endeavoring to render some of Stainers "Cruelifixion" and we want more help from the males. Forget your denomination for a while, and come out to practice. Ladies also are cordially invited to be present and to picnic with us. Providing the Cantata can be rendered it is intended to render the piece by the massed choirs of Monitor.

The Sale of Work and Afternoon Tea which was held by the Ladies Auxiliary of Monitor last Friday exceeded their expectations in every way. Not only did they sell everything they had for sale, but the tea stalls were exceptionally well patronized. In all, the handsome sum of \$120.00 was realized.

The Ladies desire to thank all those who assisted in the sale, as well as to those who came out and had a cup of tea.

J. Grace is shipping fowl to Calgary these days.

The printing of the programmes for the Concert at Consort by the Monitor Citizens Band was completed this week. There is a splendid repertoire of music. The Band is to be congratulated on the splendid class of music they are presenting. With the addition of the new instruments our home-town band is setting a pace that many larger places will find it hard to keep up with.

ALERT ALTARIO

The Newsman wishes you one and all the good, glad, old wish for a happy Xmas tide, and the best New Year you have ever yet, bar none. May all your dreams come true in 1920, even though you've been a long long time awaiting for their realization.

Our hospital is not a dream, but a glad fact, thanks to the work and self-sacrificing spirit of service of the men and women of this district, who in spite of herculean difficulties have raised nearly \$700 towards the building.

We salute the women of Altario—Hats off to the ladies who ran the Bazar, Concert and Dance. Here's how to the women who sewed, and quilted, cooked, knitted, and crocheted, early and late for the sake of the Hospital. The verdict everywhere is that it was the best time ever held yet and Altario has beaten her record of high class concerts. There are two ladies whose work was especially arduous and who acquitted themselves in a most praiseworthy manner. The Pres. of the W. I. Mrs. J. D. Robinson as superintendent of supplies scored a triumph and the directress of the concert Mrs. J. D. Robinson presented a program which reflected the highest credit on herself and her pupils. The pickpocketing was a source of fun and finance and the wicked old witch in the corner was evidently in league with cupid as she foretold the Arrows the blind boy meant to shoot. The total sum raised is round about \$260 a real lift up to the cause.

Mr. and Mrs. Solan left amidst the showers of blessings of their friends and the platform looked like a rice field. Good luck to Sigrid and Nels.

Dr. J. D. Robinson and A. Wright of this town were official delegates to the Convention of the Provincial Branch of Red Cross held at Calgary on the 10—and 11th.

'KIRRIEMUIR KOLUM'

Selmer Likness returned to Monitor Monday.

Mr. Lewis representing the Ashdown Hardware was in Kirriemuir Tuesday.

Mrs. J. H. Beadford left Kirriemuir for Waldo, B.C. to spend the winter with her daughter Mrs. E. A. White.

Rev. J. L. Wright was a Kirriemuir visitor Friday returning to Monitor Sat.

Mrs. Ragan returned from the Hospital in Saskatoon Tuesday.

Mrs. Bruce Stewart of New Bridgen was in town Thursday. Mrs. Gathman visited Coronation Dec 16th.

Mr. and Mrs. Sampson and two children left yesterday to spend Xmas holidays at Valley Ford.

Remember the Xmas Tree at Kirriemuir school on Monday eve at 8.30.

Heres Something Worth While

The BIGGEST TREAT yet given to the citizens of Monitor and district is to take place in the Big Hall on January the Second, 1920, Friday, when the Great War Veterans Association of Monitor and the Monitor Citizens Band combine to present a Grand Masquerade Dance. This event will without any doubt whatever be the most talked of and the most hilarious time ever spent in the history of the Village. Several Prizes have been donated by the Merchants of Monitor, who, as usual, are only too willing to give their support to affairs of this sort. Above all though, is the fact that at last minor and petty differences have been forgotten by both the organizations concerned, and Monitor can now boast of the real, genuine community spirit that has hitherto laid dormant. Our hats are off to the boys who are thus setting such a splendid example.

Remember then, that Jan. 2, 1920, is engaged as far as you are concerned. Come to the Big Hall at Monitor, and enjoy yourself. Super will be served. The ladies, as usual, are asked to bring cakes.

Treatment of the "New" Canadians

In this column last week some comment was offered on recent speeches by Hon. T. A. Crerar, in which he deprecated the formation and encouragement of distinctly class movements in Canada, and offered words of advice and warning to people generally, and the farmers in particular, not to be led astray by new and untied men who were now espousing their cause since it had become popular and strong, but who held aloof from it in the days of stress and hard fighting when it was not so generally acclaimed.

This week we would direct attention to another notable speech, and one of equal timeliness, delivered by J. A. Maharg, president of the Saskatchewan Grain Growers' Association. Addressing a district Grain Growers' convention at Regina, Mr. Maharg emphasized the importance of continuing the educational work of the association, and not neglecting it for the new political movement. The people had decided, he said to try out a new method of election, but the old educational campaign was still necessary and always would be to ensure the success of the new movement. Endorsing the views expressed by Mr. Crerar, the president of the Saskatchewan Grain Growers declared that if the new political party should develop into a class political organization, its usefulness would soon cease. Therefore, the educational efforts of the parent association must be made to permeate through all classes. He added: "Support was being obtained from among all classes, and that support must continue to be merited in order to hold it."

The eagerness of those who had been active in the old political parties to join the new movement was commented on by Mr. Maharg, who declared that if that eagerness was

genuine they should be welcomed. He pointed out that many of the adherents of the old political organizations had carried on the fight on behalf of the new party principles for many years, and it should not be forgotten that it was behind those bulwarks that the new party had been able to grow to its present stature.

Of particular timeliness, however, was Mr. Maharg's reference to the foreigners, so-called, in Canada and the attitude which the British-born and English-speaking people should adopt toward them, and he spoke with special reference to the new Franchise Act, which is to be drafted and passed at the next session of Parliament. Pointing to the fact that the South African war was brought about on account of an unjust franchise, he declared that in Canada we must be careful that no grievance of that kind was allowed to beset the name of the Dominion. He stated that there were approximately two million "foreigners" in Canada, and that there were good and bad among them just as there were good and bad among the rest of us, and that while there had been reason to be critical of them in years past, the time had come when we would have to yield ourselves and all those who had come to our shores from other countries into one homogeneous whole if we were to prosper as a nation.

Discussing the national debt, Mr. Maharg said it amounted to approximately two billion dollars, and if, by any chance, legislation should be passed which would tend to drive some of our foreign population out of the country, we would be placed in a very difficult position. It was, he said, only by developing our natural resources that we could hope to liquidate our indebtedness, and we could not, therefore, afford to drive away the labor that would enable us to do so. In this connection reference was made to railway extension work, for which large appropriations had been made, but which was retarded owing to lack of labor. "We need the foreigner who has come to make his home with us," said Mr. Maharg, and it is our duty to educate him in the exercise of the franchise.

People, particularly in Western Canada, should remember that it is largely because of the presence of these settlers from foreign lands that our population has grown to such an extent that these Western Provinces are now becoming a political power at Ottawa through our increased representation there, and through that increased representation we should, in the very near future, obtain reforms for which the West has long fought.

It has been through the presence and labor of these people that thousands of miles of new railways have been built, that our coalmines are operated, that waterworks, sewer systems, pavements and other modern conveniences have been provided in our cities and towns. They have been of material assistance in carrying through our building operations, and have added enormously to the grain production of the prairie West. They are carrying their share of the burden of taxation from which this Western country is securing better roads and bridges, more schools, rural telephones and other services. In a word, they are a mighty factor in the growth, development and prosperity of the country.

In our intercourse with them, and in all our public policies, we should treat them, not as aliens, but as Canadians, instead of antagonizing them and so conducting ourselves towards them as to give them a real grievance, we should be kindly and considerate in our treatment, while at the same time firm in insisting upon

them identifying themselves thoroughly with our Canadian institutions and adopting our national ideals. A policy of antagonism towards them, of rebuffs and disfranchisement, will get us nowhere. They will merely widen the breach and postpone the day of complete assimilation. But sympathetic consideration and fair treatment will make them loyal Canadians, while their children will forget that they were ever anything but Canadians.

Faint and Dizzy Spells. Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, the shivering, irregular beatings, the smothering sensation, the weakness, the all-one feeling, choking sensation, etc.

Many men and women become run-down, worn out, and otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills. Mrs. C. A. S. Drake, Paris, Ont., writes: "I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A ball dress is cut low, but the bill for it comes high.

There is no more effective vermifuge on the market than Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the inflexible system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

Lots of men who have an aim in life lack ambition.

Minard's Liniment Cures Distemper.

Contentment is never begotten by regret.

Healthy, Happy Boys and Girls

Is your child healthy? Is he or she up to standard weight, of good color, with plenty of rich, red blood to nourish the growing tissues?

For children who are thin, pale, anaemic, under weight, nervous, restless, sleepless, Dr. Chase's Nerve Food is of the greatest benefit imaginable.

Being mild and gentle in action, and yet wonderfully potent as a restorative, it soon makes the blood rich and builds up the feeble nerves.

20 cents a box, 6 for \$2.00, all dealers, or Milburn, Drake & Co., Ltd., Toronto.

Attractive Winter Tours

During the summer months it is impossible for many Western Canadians to take a vacation. However, with the advent of winter, and harvest over, many are planning a trip for a few weeks, or possibly to spend the winter in a warmer climate. Some will go East to visit the old folks and spend Christmas at home, others may desire to visit the Pacific Coast, where outdoor sports can be enjoyed the year round, and low lying hills, silver and blue sea, and lofty snow crowned mountains, where flowers and shrubs, rare elsewhere in America, thrive. This trip can easily be extended to California, and a choice of a sea voyage, or train journey via the wondrous Shasta Route, is offered. This, combined with the 500 miles of scenic beauty through the Canadian Rockies, is unequalled anywhere in the world.

At San Francisco and Los Angeles Canadian Pacific Offices are maintained where visitors will be made welcome, and given assistance in securing rooms, cottages or hotel accommodations.

The Canadian Pacific Railway maintain an unequalled service to Eastern and Pacific Coast points, operating two solid through trains each way daily.

Florida also attracts a great many Canadians each winter, with its hundreds of ideal winter resorts.

The abundant and delightful outdoor life of the Southern winter is the chief charm, and no attractive feature has been overlooked. Golf may be played upon dozens of the finest courses in the country, riding, driving, yachting, boating and bathing are some sports available almost everywhere.

Call or write today to our Agent of the Canadian Pacific and he will be pleased to give you full information, and plan your trip.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

"Mother! You must say 'California'."

It required more than a century for a cedar to grow large enough to yield a thirty-foot telephone pole.

The Real Liver Pill.—A torpid liver means a disordered system, mental depression, lassitude and in the end, if care be not taken, a chronic state of debility. The very best medicine to arouse the liver to healthy action is Parmelee's Vegetable Pills. They are compounded of purely vegetable substances of careful selection, and no other pills have their fine qualities. They do not grip or pain, and they are agreeable to the most sensitive stomach.

Indians Ready For Winter

The information reaching the department of Indian Affairs, from all parts of Canada, in regard to the outlook for the winter is decidedly encouraging, according to Duncan Scott, deputy superintendent general. Mr. Scott stated that there had been no reports of influenza thus far and the Indians in all parts of the Dominion appeared to be well prepared for the winter.

Monitor FRIDAY DECEMBER 19 1919 Alberta

Our Birthday

With this issue of the Monitor News, we celebrate our fifth birthday. Four years now the News has appeared weekly, sometimes good, sometimes bad and sometimes indifferent, but we hope with the coming year, that we may be able to publish a paper that is really worth while. As it is, we find it rather difficult at times to explain why Mrs. So-and-so was not mentioned in our local items. People either don't or can't realize that we are not able to be in more than four places at once, and therefore cannot see what is going on in the fifth place.

The News has been published under the new management for ten weeks and we are assured and confident that the support of the whole community is behind us. We have travelled some in this Dominion of ours and in other countries too, and we can truly say that we have yet to find a village or community that can in any way favorably compare with this fair village. So, seeing that we didn't die last Wednesday, we are here to stay.

We thank you most sincerely for the generous support you have given this paper and trust that during the coming years your support may still be forthcoming. Not by paying subscriptions alone, and advertising in our columns though. You help us as much when you give us the happenings that will prove a good reading matter to other who are interested in our future. If Mrs. Smith has a baby—that's news. If Mr. Jones has a fit—that's news. The little daily things that occur from time to time all help to make this paper a real "Monitor News". If you appreciate our efforts, help us to help you by informing us of those items.

We thank those that have wished us success in the coming year. Here's How.

LOOK AT YOUR LABEL

We would like to inform our readers and subscribers that there are a number of subscriptions yet outstanding to the News. The date now shown on your label on this paper, shows the date upon which your paid up subscription expires. While it is not necessary for you to remit at once, (for we fully understand how hard the ready cash is to get a hold of these days) we would appreciate a remittance from you as soon as convenient.

There will be no subscriptions cut off on account of non-payment unless we are advised to that effect. But, we need money to carry on the business and we trust we may have the support of you all as we have had in the past. Thank you.

The Church And Its Work

By The Rev. W. S. Wickenden,
B. A., L. Th. Rural Dean

Christmas is a time of peace and joy. On the first Christmas morn the goodwill of God towards His people was shown in the birth of the Saviour.

Thanks be to God for His unspeakable Gift. The Gift of Gods own Son, born at Bethlehem nearly 2000 years ago means His people's Salvation. His Name "Jesus" means "Saviour". St John says "Beloved, if God so loved us, we also ought to love one another". And St. Paul says "Be ye kind one to another, tender-hearted, forgiving one another, even as God for Christ's Sake hath forgiven you".

May the spirit of peace and joy which flow from forgiveness and love fill our hearts this Christmas tide.

A thoroughly organized plan has been launched by the Executive of the Alberta Women's Institutes to carry on relief work for the drought-stricken areas of Southern Alberta. Calgary will be the headquarters and in that city there has been opened up "The Alberta Women's Institute Relief Depot". From this centre clothing will be dispensed on application.

An appeal for help has been sent out to the various Institutes and to residents in the cities and these have been responding nobly but it is necessary owing to the early cold snap that the work be carried on at full speed immediately. The Alberta Women's Institute will be glad therefore, to receive from any individuals societies or communities any clothing, bedding, household linen, money, etc. that can be spared. All money donations should be sent to the Provincial Secretary, Mrs. A. H. Rogers, Ft. Saskatchewan, while bundles of clothing etc. will be received at the Relief rooms, Riley block, Calgary. The clothing from this centre will be assorted and repacked and sent on to districts who have sent in for relief. The money will be spent for shoes, undergarments, bedding, etc.

The plan is a thorough one. Each request is verified either by the President of the Institutes, School teachers, Reeve, Secretaries of Municipalities, Township Councillors, Relief Fieldman, Bank Manager, or Clergymen. Although the response so far is splendid much more is needed at once children cannot go to school because of lack of clothing and there is much suffering. This is a real chance to do some "Home Missionary" work and everyone is urged to act at once. A full account of donations received will be published in the press.

Symptoms That Tell of Biliousness

HOW TO PREVENT AND CURE

Are you dizzy?
Do you head swim?
Does everything turn dark when you rise after stooping?
Are you constantly suffering from headache?
Are you short of breath after going upstairs?
Is your tongue coated and furred?
These symptoms give warning that your system needs a thorough cleansing. All poisons must be flushed out. The remedy is Dr. Hamilton's Pills. Marked benefit immediately follows their use.
These famous pills loosen the bowels and stop constipation; they act on the liver and kidneys, make them strong and vigorous.
This ensures health and purity for the blood and consequently the whole system benefits.
No other medicine tones and braces like Dr. Hamilton's Pills; they at once cure biliousness, headache, dizziness, poor color, coated tongue, and all diseases arising through fault of the stomach, kidneys, or liver; try them.
Results prove the merits of Dr. Hamilton's Pills, 25c per box.

The True Democracy

If There Is Democracy Anywhere, It Is In These British Dominions and the Motherland

The Prince of Wales is shrewd beyond his years. He told a group of Washington newspaper men that he was sure he was not going to be disappointed in the United States. "Your institutions, your ways of life, your aims, are as democratic as ours," he said to them. To hold one's friends to be as good as one's self is sufficient, as a rule. But in this case the Prince was saying in his guileless way that the one thing upon which these republicans prided themselves above the monarchists of Britain was just as good as was that of the British people, namely, their democracy. Here were folk who believed in their hearts that their democracy was the one simple pure democracy of the earth. "It is just as good as ours," said the Prince. Their institutions were as free as were those of the empire, he represented. Their courts, their laws, their practices, all were as replete with the tenets of democracy as were the British courts, laws and practices. The Prince did not say that British laws provided the same degree of freedom as did the laws of the United States. He put it the other way. What the Americans regarded as peculiar to themselves the Prince praised as being the equal of his own.

Besides, the Prince is right. If there is democracy anywhere, it is in these British dominions and in the motherland. Who rule, if it is not the people of the country where men and women, whatever their station, may express any opinion at the polls and compel respect for that opinion? Who rule, if it is not the people who have a monarch, but not the tyrant; we have the King, but not the autocrat. The throne of Great Britain is the great bond of empire holding together in one common purpose the mightiest group of nations that the world has seen, each of them yet capable of tremendous development and all moving forward to the goal of an advanced civilization. But the point of the Prince's exceedingly happy remark is that it will cause the people of the United States to inquire if, after all, they have a "corner" on democracy. It will increase their respect for the British system of government and, indirectly, for the British people.—London Free Press.

Canada A Mecca

Our Western Country as the Centre of Possibilities in Growth of Population

An English manufacturer of cutlery, a Sheffield man, has bought property in Winnipeg, likewise a building, where he will shortly establish his business. It is his intention to make a move from England to Canada, bringing out his special machinery and his operatives.

This is an extremely significant move, an event of great importance, not only to Winnipeg, but to the whole Canadian West. It is evident that this British manufacturer looks upon our western country as the centre of possibilities in growth of population and business, the likeliest part of the great Dominion in which to establish a manufacturing concern.

He must also have come to the conclusion that the post-war conditions which have played havoc with the manufacturing business in old England are more favorable for capital in Western Canada than anywhere else in the world. The outlook for English factory owners, who once held the world's trade in the hollow of their hands, because of low cost of living and consequent low wages in the old country, is how dreary in the extreme.

In future it will be necessary for them to compete on equal wage conditions with manufacturers in Canada and the United States, who have their raw material at their back door, so to speak, while they have to haul it immense distances to England before they can begin the process of manufacture. During recent months the miners in the United Kingdom have succeeded in getting such advance in wages that the price of coal to manufacturers has been greatly increased, thus adding to their cost of production. And in addition to these serious handicaps, English manufacturers are groaning under a weight of taxation to which their brothers in Canada are comparative strangers.

Wherefore this shrewd Sheffield knifemaker is cutting the Gordian knot and escaping from beneath an insupportable load by transferring his whole business, stock, lock and barrel to Winnipeg. If other manufacturers in England do likewise, Canada will soon be the centre of population in the British Empire.—The Calgary Herald.

The Petroleum Belt

The more the supply of coal becomes uncertain, the more is attention drawn to the world's petrol supply. A French journal remarked recently that, if the prognostications of a mining engineer in Kashmir were well founded, the Old World's petroleum belt extended from western Europe to the Malay Archipelago. There is oil in Scotland; it has been discovered recently in England; it is also to be found in Alsace. The Rumanian wells are among the most important in the world; then, geographically, comes the Russian supply, the Caucasian, Persian, and that of the Indian valley. On the other side of India petroleum is met with in Assam, Burma and Sumatra. If, then, oil is actually to be found on the southern slopes of the Himalayas, the geographical continuity of the supply will be found unbroken.

Old Folks Coughs, Catarrh, Bronchitis Quickly Cured

This Tells of a Method That Cures Without Using Drugs

Elderly people take cold easily. Unlike young folks, they recover slowly. That is why so many people past middle life die of pneumonia. Coughs, Symples, seldom reach such good because they upset digestion. Any doctor knows that a much more effective treatment is "CATARRHOZONE," which heals and soothes the irritated surfaces of the throat.

In using Catarrhoxone you do not take medicine into the stomach—you simply breathe into the throat, nose and lungs rich piney balsamic vapor, so full of healing power that colds, catarrh and bronchitis disappear almost instantly. The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure medicinal essences, whereas with a syrup the affected parts could not be reached, and harm would result through burning the stomach with drugs.

A Catarrhoxone inhaler in your pocket or purse enables you to stop a cold with the first sneeze. Large size costs \$1.00 and supplies treatment for two months; small size, 50c, trial size, 25c; all storekeepers and druggists, or The Catarrhoxone Co., Kingston, Canada.

Meat Supply from Arctic

Government and Men With Intimate Knowledge of the Far North to Confer Soon

Conditions in the far north, measures for increasing by developments there the country's meat supply, and to establish aerial communication with that part of the country will be considered at a conference between the government and men who have intimate knowledge of conditions in the far north. Adding to the country's meat supply by increasing herds of musk ox, buffalo, reindeer and other animals will be considered.

From the performances now being made by airships, it is figured that the round trip from Edmonton to Dawson could be made in 36 hours, and air patrols to Hudson Bay and the Yukon and Mackenzie valleys by the Mounted Police greatly facilitated.

Imperial Conference Of War Veterans

Proposed That an Inter-Imperial Organization Be Formed

The holding of an inter-imperial conference of the veterans of the great war on land, on sea and in the air is being seriously mooted. The suggestion some time ago was broached among the veterans of Canada. The Dominion executive of that body of men is now in receipt of a communication from the veterans of South Africa suggesting that such a conference be held at the earliest possible date at Capetown. The point is claimed to be the most central point for the foregathering of the fighting men of Canada, Australia, New Zealand, Newfoundland, Great Britain and the other portions of the empire which participated in the conflict.

It is proposed that representatives of soldiers' and sailors' organizations be sent and that an inter-imperial organization be formed for the furthering of good comradeship among the men who fought for the common cause, and for inter-communication on matters in which all are concerned.

Should the organization be formed it would constitute one of the most formidable fraternal associations in the world. The proposal is receiving consideration.

The Great War Veteran's Co-operative Trading Co., capitalized at \$20,000, has been incorporated at Regina.

It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news—spreads rapidly and druggetts here are kept busy dispensing frezzone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of frezzone, which will cost very little, but is said to be sufficient to rid one's feet of every hard, or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shrivelled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection, heretofore resulting from the suicidal habit of cutting corns.

Women Are Indignant

Strong Feeling in England Against Immigration Rules

The London Daily Express asserts that there is a strong feeling being manifested among women immigrants going into Canada against the revised regulations for stricter medical inspection and compulsory guardianship by Canadian government conductresses.

Col. J. Obed-Smith strongly defends the regulations as being entirely in the interests of both Canada and the immigrants, and says the Imperial government is fully in accord with the Canadian government in the matter.

Wash Out Your Pores With Cuticura Soap

And have a clear, sweet, healthy skin with little trouble and trifling expense. Contrast this simple wholesome treatment with tireless massaging and other fads. On retiring smear the face with Cuticura Ointment on the end of the finger, wash off in 10 minutes with Cuticura Soap and hot water, using plenty of soap. Next apply to the face, which it softens wonderfully, and continue bathing a few moments.

Rinse with tepid water, dry gently and dust on a few grains of Cuticura Talcum Powder, a delicate fragrant touch.

Farmers Market Poultry

During the past few weeks 50,000 lbs. of live poultry have been handled by the Moose Jaw Livestock Feeding Co., a concern organized from ranchers and business men for the purpose of finishing poorly fed stock coming to market. A car has been built by the company especially for the shipping of poultry from outside points. This is properly heated and gives every protection to poultry in transit.

Huge Sum Required For Military Use

Ottawa, Ont.—Though Canada is back to the basis of peace, it may be deemed necessary to spend as much as \$25,000,000 next year for military purposes. Estimates of the Militia Department are now under preparation, and the total stated covers the anticipated outlay upon the militia.

It is an increase of \$13,000,000 compared with the anti-war period. The cost of materials, food, etc., is almost wholly blamed for it.

A report will be presented shortly as to the future of the Canadian militia, what units will be maintained and what ones discarded.

The carrying out of this plan will depend much upon the extent to which the pruning knife is applied to the draft estimates when revised by the treasury board and the government.

Coal Strike Settled

Men Will Return at Once With Increase of 14 Per Cent in Wages

Indianapolis.—The strike of 400,000 bituminous coal miners of the country was settled here, when the general committee of the United Mineworkers of America agreed to accept the plan offered by President Wilson.

The plan provides that the miners shall return to work at once at an increase of 14 per cent in wages; that a commission of three persons be appointed to investigate and determine within 60 days, if possible, a basis for a new wage agreement. The conference was made up of international and district officials and members of the executive board and scale committee of the organization.

NOTHING TO EQUAL

BABY'S OWN TABLETS

Mrs. Alfred Naud, Natagan River, Que., writes: "I do not think there is any other medicine to equal Baby's Own Tablets for little ones. I have used them for my baby, and would use nothing else." What Mrs. Naud says, thousands of other mothers say. They have found by trial that the Tablets always do just what is claimed for them. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus banish indigestion, constipation, colic, colds, etc. They are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Flight Between Australia and England

Captain Ross Smith Wins Prize of £10,000 for Successful Performance

Port Darwin, Australia.—Captain Ross Smith, the Australian aviator, has arrived here from England, thus winning the prize of ten thousand pounds sterling offered for the first aviator to make the voyage.

Under the conditions laid down by the Australian government when it offered a prize for making a flight from England to Australia, the distance of 11,500 miles had to be covered within 30 days. Captain Ross Smith left Hounslow aviation field, near London, at 9 o'clock, November 12, on his flight to Australia. On November 18 he reached Cairo, and on November 19 continued his flight, reaching Delhi, India, on November 23. From there he continued east until he reached Rangoon, turning southward at that city, making a number of stops along the Malay Peninsula and in the islands of Oceania. He arrived at Bina, on Sumbawa Island, near Java, on the evening of December 7.

Port Darwin is near the northernmost tip of Australia, being near the town of Palmerston.

Manitoba Social Congress Wants Government Control of Sales

Winnipeg.—In a resolution, adopted by the Social Congress of Manitoba, in session here, an appeal was made to Premier Norris and the provincial government for legislation to prevent the importation of liquor into Manitoba.

Government control of all liquor sales and other phases of the liquor problem also were discussed at length, but action was referred to a resolution committee, which will report to the congress before adjournment.

New Offensive

Reval, Esthonia.—The Bolsheviks have begun a new offensive on the Narva front. After terrific artillery fire ten assaults were delivered upon the Esthonian positions. All the attacks were repulsed, the reports state, with heavy losses to the Bolshevik forces.

British Unions Ask for Early Peace

London.—The trades union congress in session adopted a resolution calling upon the government to consider immediately peace overtures of the soviet government and raise the blockade between Russia and the outside world, and demanding the right for an independent inquiry into political industrial and economical conditions in Russia.

The resolution also instructs the parliamentary committee to appoint a delegation to visit Russia.

Consider Protection Of Three Nations

Would Surrender

To the Allies

Ex-Crown Prince Rupprecht Is Now Ready for Extradition

Munich.—In a letter addressed to the president of the Bavarian Red Cross, former Crown Prince Rupprecht of Bavaria, who commanded German armies in Belgium and France during the war, and who is in Switzerland, offers to surrender himself in response to the demands of the entente for the extradition of German army leaders, provided that his action will bring about the release of German prisoners in France.

The former crown prince says the demand for extradition, in view of the fact that the judge and prosecutor are one, "is a mockery of every sense of justice."

He volunteers, however, that if the entente insists upon the fulfillment of the extradition clause in the peace treaty before the German prisoners are released that he will present himself for extradition.

Thinks Allies Are

Conciliatory

Tangible Concessions Are Contained in Entente Notes, Says a German Paper

Berlin.—The entente notes are more conciliatory in tone than has been previously assumed, says the Volks Zeitung.

"They contain tangible concessions, the final clause of the protocol providing that the entente could at any time take military action against Germany, has been dropped. Negotiations also can take place regarding certain modifications in the protocol concerning the surrendering of the dry docks."

Microbes Recur in Cycles

London.—Influenza microbes have a regular program by which they recur in cycles of 33 weeks, according to the medical research committee. The next call is expected in January and February, it is said.

Paris.—Premier Clemenceau's approaching visit to London, which will place him in the British capital at the same time with Foreign Minister Scialoja, of Italy, has given rise to speculation here of the possibility that questions of importance to Great Britain, France and Italy will be discussed there. These would have to do, it is suggested, with the taking of measures for the protection of the common interests of these three nations in question, in case the United States does not ratify the peace treaty or the League of Nations does not begin functioning shortly.

There is even talk of the possibility of the forming of an alliance, with the object of securing the execution of the German treaty and affecting other subjects on the League of Nations program.

Sorry to disappoint you all last week, but I was busy digging a cellar to crawl into when the end of the world came, and so couldn't get around as usual.

Sandy Thompson will be greatly missed these days at the Curling rink. His last game at our rink will go down into history as a hum dinger. His team defeated the Babies rink in a very close game. and at the close thereof the two rinks repaired to Charles and partook of an oyster supper. Mr. Matheson poured em. During the evening, Mr. Galbraith, with great feeling and wonderful pathos recited that touching poem entitled "Barney O' Flynn"

According to reports sugar must be plentiful here, as we are informed that Jim Hayes took a load out to the country last week.

N. Crig nearly got a drink last week. He made a special trip to Dardmarah Store with a small wooden box labelled Glass with Care, and requested that Jack opened it and give him a drink. The bottle contained—well, ask Either one of them.

Nothing like preparedness. Doc Larder, after reading Foster's prophesy of 100 below Zero and some other guys prediction of the end of the world on Wednesday, supplied himself with umpteen tons of coal and lots of Kindling. "For" said he "If we don't die at the end of the world, I'll need the coal anyway, and I if I do die, I can sell the blame stuff to the devil"

Albert Radel denies the allegation that he is collaboration with Prof. Foster.

E. O. Gould rises to remark that in future he wishes the malefactors who swiped his coat, would come and let him know first.

Queries are commencing to arrive concerning the location of oil at this point. Last week we received three or four from various points. We have definitely ascertained that the land has been filed on for oil and gas, approximately 19,500 acres of it. That, at least, should go to show that there is something at the back of this str. Accurate information however, is very hard to get hold of at present, as those concerned vitally are not in the city.

THE NERVOUS SCHOOL CHILD

Needs Rich, Red Blood to Regain Health and Strength.
Many children start school in excellent health but after a short time home work, examinations, hurried meals and crowded school rooms cause their blood to become weak and thin, their nerves overwrought and their color high spirits lost. It is a great mistake to let matters drift when boys and girls show symptoms of nervousness or weak blood. They are almost sure to fall victims of St. Vitus' dance, or drift into debility that leads to other troubles. Regular meals, outdoor exercise and plenty of sleep are necessary to combat the nervousness of school life. But it is still more important that parents should pay strict attention to the school child's blood supply. Keep this rich and red by giving Dr. Williams' Pink Pills according to directions, and the boy or girl will be sturdy and fit for school. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the statement of Mrs. Pearl G. Harrington, Kingsville, Ont., who says: "I have often felt that I should write you and let you know what Dr. Williams' Pink Pills did for me. At the age of thirteen I was afflicted with St. Vitus' dance. The trouble became so severe that I had to be taken from school. I was given medical treatment, but it did not help me, in fact I was steadily growing worse. Then a friend advised my mother to give me Dr. Williams' Pink Pills, which she did, with the happiest results, as the pills completely cured me and I was again able to take up my studies and attend school. Again about three years ago I was attacked with nervous prostration, and once more took Dr. Williams' Pink Pills, and after using five boxes was fully restored. I cannot praise the pills too highly, as I believe they will cure any case of St. Vitus' dance, or restore anyone who is weak, nervous or run down."
You can safely give Dr. Williams' Pink Pills to the most delicate child, or take them yourself, with equally good results when you need a blood tonic. These pills are sold by all dealers in medicine, or will be sent by mail, post paid, at 50 cents a box, or six boxes for \$2.50, by The Dr. Williams' Medicine Co., Brockville, Ont.

Turning Stock Ranch to Farms

A Large Block of Alberta Land Changes Hands
An Alberta land deal involving the sum of approximately \$330,000, has just been completed. This sum has been paid by several farmers from the eastern states for about 15,000 acres of land in the vicinity of Olds, about 75 miles north of Calgary.
This land has been used for the last twenty years for ranch and grazing purposes, but it is one of the signs of the agricultural development of Western Canada that the immense cattle and horse ranches of olden days are being gradually broken up and the land turned to the raising of grain and field crops in conjunction with livestock and poultry.

It is understood that the new owners will start development work immediately and will convert the property into a mixed farm. The land already cleared will be put into crop and the rest of the holdings will be cleared. Livestock will be raised extensively, and if the racing game develops in Alberta it is probable that thoroughbred horses will form a branch of the farm's activities.
Some tailors would make excellent cavalrymen; they are natural born chargers.

Keep Fit For Success In Life

BY DR. A. B. BARCOCK

You can take your boy and out of him make anything you like if you can get him under good self-discipline. All roads are open to the man who is strong and fit. Uncle Sam took "our boys"—those slab-sided, stooped, hollow-chested youths—and made of them vigorous, well-developed, well-set-up and courageous men. Take the right way! Train yourself and your children to take proper exercise, drink plenty of water and keep the system clean. Your doctor will tell you that anything from a common cold or headache to the most serious illness may result from the absorption of poisons in the intestines.

The first principle is to keep the system clean. Occasionally see that the boy or girl, as well as yourself, has an internal bath. It may be with castor oil or a tiny pill of May-apple, aloin and jalap, which is sold by druggists as Dr. Pierce's Pleasant Pellets.

If a cold starts with a cough and it persists, then some local treatment for this condition should be taken. A well-known alternative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs, without alcohol, and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.
